

THE LIST OF TYPIC PATHOLOGIC PROCESSES

1. Cellular lesion
2. Ischemia
3. Embolia
4. Arterial hyperemia
5. Venous hyperemia
6. Inflammation
7. Hyperthermia
8. Allergy (anaphylactic, cytolytic, imunocomplex, delayed types)
9. Cancerogenesis
10. Hyperhydratation
11. Hypohydratation
12. Alkalosis
13. Acidosis
14. Edema, dyshydria
15. Carbohydrate exchange disturbances (glycogenesis)
16. Starvation
17. Lipid exchange disturbances
18. Stress, "Adapational" diseases
19. Hypoxia
20. Pain, nociception.
